Subject: Portland Superfund Cleanup Plan

It is with great concern that I have read about your very poorly devised plan for the cleanup of the Wilamette & Columbia River. Apparently it isn't even much of a cleanup - just a sort of cosmetic touchup. But this area has toxic waste!!! and it affects the health of our river, our fish, and our children.

I want the EPA to be more responsive to the real needs of the environment!! After all, isn't that what your agency was charged with????!!!
